Vol. XIX.]

THURSDAY, JULY 2, 1818.

[No. 5269.]

For the prevention and cure of
BILIOUS and MALIGNANT FEVERS
is recommended
Hahn's ANTI-BILIOUS PILLS
THIS Medicine has been attended
with a degree of success highly grateful
to the inventor's feelings in several parts
of the West Indies and in the Southern
and Middle States, &c.

The testimony of a number of persons
can be adduced, who have reason to be-
lieve that a timely use of this salutary re-
medy has, under Providence, preserved
their lives when in the most alarming cir-
cumstances.

Facts of this conclusive nature speak
more in favour of a medicine than col-
umns of pompous eulogy founded on
mere assertion.

It is not indeed presumptuously pro-
posed as an infallible cure, but the inven-
tor has every possible reason that can re-
sult from extensive experience for be-
lieving that a dose of these Pills taken
once in every two weeks during the pre-
valence of our bilious fevers, will prove
an infallible preventive; and further,
that in the earlier stages of those diseases
their use will very generally succeed in
restoring health, and frequently in cas-
ing desperate and beyond the power
of common remedies.

The operation of these pills is perfectly
mild, so as to be used with safety by per-
sons in every situation and of every age.
They are excellently adapted to carry
off superfluous bile and prevent its mor-
bid secretions—to restore and amend the
appetite—to produce a free perspiration
and thereby prevent colds which are of-
ten of fatal consequences. A dose never
fails to remove a cold if taken on its first
appearance; they are celebrated for re-
moving habitual costiveness—sickness at
the stomach and severe head-ache—and
ought to be taken by all persons on a
change of climate.

They have been found remarkably effi-
cacious in preventing and curing disor-
ders attendant on long voyages, and
should be procured and carefully preserv-
ed for use by every seaman.

Hamilton's Elixir.
A sovereign remedy for colds, obste-
inate coughs, asthmas, sore throats, ca-
tarrhs, and approaching consumptions.—
To parents who have children afflicted
with the **HOOPING COUGH**, this dis-
covery is of the first magnitude, as it af-
fords immediate relief, checks the pro-
gress, and in a short time entirely re-
moves the most cruel disorders to which
children are liable. The Elixir is per-
fectly agreeable, and the dose so small
that no difficulty arises in taking it.

Hamilton's Grand Restorative.
Is recommended as an invaluable me-
dicine for the speedy relief and perman-
ent cure of
Nervous Disorders Violent cramps in
Consumptions the stomach and
Lowness of spirits back
Loss of appetite Indigestion
Impurity of blood Melancholy
Hysterical affections Gout in the stomach
Inward weaknesses Pains in the limbs
and debility Relaxations, etc.

**Hamilton's Essence and Extract of
Mustard.**
A safe and effectual remedy for acute
and chronic rheumatism, gout, rheumatic
gout, palsy, lumbago, numbness, white
swellings, chilblains, sprains, bruises, pain
in the face and neck, etc. etc.

Lee's Ointment for the Itch.
Warranted an infallible remedy at one
application, may be used with perfect
safety by pregnant women, or on infants
a week old, not containing a particle of
mercury or any dangerous ingredient
whatever, and not accompanied with that
tormenting smart which attends the ap-
plication of other remedies.

**Hahn's true & genuine German Corn
Plaster.**
An infallible remedy for corns, speedi-
ly removing their root and branch, with-
out giving any pain.

The Genuine Persian Lotion.
So celebrated among the fashionable
throughout Europe, is an invaluable cos-
metic, perfectly innocent and safe, free
from corrosive and repellent mineral
the basis of other lotions, and of un-
paralleled efficacy in removing blemishes
of the face and skin, freckles, pimples,
inflammatory redness, scurfs, tetter, ring-
worms, sunburns, prickly heat, &c.

Hahn's genuine Eye Water.
A sovereign remedy for all diseases of
the eyes, whether the effect of natural
weakness or of accident.

Tooth Ache Drops.
The only remedy yet discovered which
gives immediate and lasting relief in the
most severe instances.

Lee's Infallible Ague and Fever Drops
For the cure of agues, remittent and
intermittent fevers.

At the place of sale pamphlets
may be had gratis, describing cures per-
formed by the above medicines; the num-
ber, importance and respectability of
which, fully justify every article of this
advertisement.

latto man named Nick, five feet ten
inches high, slender made, a little
deaf, speaks a little through his nose, has
been in the habit of wearing rings in his
ears, but may have taken them out to
avoid discovery. Said negro Nick has a
wife on Mr. Thomas A. Diggs's land,
near Fort Washington, and is probably
harbored in that neighborhood. I will
give the above reward of Thirty Dollars,
if taken out of the State of Maryland,
and Twenty if taken in the State, more

BILL IN CHANCERY.
Robert Perry
versus
James B. Dunnington, Robert Dunning-
ton, Francis Taylor and Elizabeth B.
his wife, James Bloxham and Catharine
his wife, William Simmons and Esther
his wife, heirs of William Dunnington.
THE Complainant alleged in his bill
that the Respondents have in pos-
session the real estate of their deceased
father Wm. Dunnington, whose personal
estate was not sufficient for the payment
of his debts. Wm. Dunnington's estate
is indebted to the complainant in a large
sum of money. The object of the bill is
to procure a decree for the sale of the
land, for the payment of the debts re-
maining unpaid by the personal estate.
Some of the heirs of Wm. Dunnington
are non-residents.—It is thereupon, at
motion of the Complainant, ordered that
he cause a copy of this order to be in-
serted in the Alexandria Gazette for the
space of three months, to the intent that
the absent defendants may have notice of
this application, and of the subject and
object of the bill, and may be warned to
appear in this court in person or by a
solicitor, to shew cause, if any there be,
wherefore a decree should not pass as
prayed. Teste,

Fifty Dollars Reward.
THERE came to the tables of this
subscriber, on Monday the 1st inst.
a person calling himself
MR. PEYTON,

and obtained a horse and gig on hire, as
he said, to go to Ellicott's Mills, and re-
turn in the afternoon of the same day;
and as he has not yet returned, there is
strong reason to believe that his intention
is to swindle me out of my property. He
is about 5 feet 8 or 9 inches high, ap-
parently about 25 or 30 years of age,
of genteel appearance, and well calculated
to deceive.
The horse is a grey, about 15 hands
high, 9 or 10 years old, has a switch tail,
a speck on the right eye, and moves
swifly. The gig has a green body, car-
riage and wheels black, the lining of blue
cloth, red stuff top, linings, plated dou-
ble—outside joints.

I will give the above reward for the
recovery of the horse and gig, and the
detection of the scoundrel, or 20 dollars
for the horse and gig only, and all reason-
able expenses if delivered to me, No.

Turnpike Road from Wiley's Tavern,
in the county of Fairfax, to a point of
intersection on the Little River Turn-
pike Road, or on the line of the dis-
trict of Columbia. Passed February
14, 1818.

It is enacted by the General Assem-
bly, that it shall be lawful to open
books at Fairfax court-house, and in the
town of Alexandria, under the direction
of Francis Peyton, Augustine T. Smith,
Wm. Moss, Johnston Cleveland, Aaron
Alexander, Mordecai C. Fitzhugh, Joseph
Thompson, George Denzels and James
H. Hoar, or any three of them, for re-
ceiving subscriptions to the amount of
sixty thousand dollars, for the purpose of
making a turnpike road from Wiley's ta-
vern, in the county of Fairfax, to a point
of intersection on the Little River Turn-
pike Road, or on the line of the district
of Columbia, as shall be designated by
the directors of the company herein after
named.

When a sufficient number of shares
shall have been subscribed, the subscri-
bers, their heirs and assigns, shall be
and they are hereby incorporated into a
company by the name of "The Middle
Turnpike Company," agreeably to the
act, entitled, "An Act prescribing cer-
tain general regulations for the incorpo-
ration of Turnpike Companies."

This act shall be in force from the
passing thereof.

ALEXANDRIA GAZETTE AND DAILY ADVERTISER.

PUBLISHED BY
SAMUEL SNOWDEN,
ROYAL STREET.

Daily Gazette 87—Country Gazette 85.

THURSDAY, JULY 2, 1818.

From the Monthly Magazine.

The following exquisite Stanzas were addressed by Lord Byron to his Lady a few months before their separation.

TO JESSY.

There is a mystic thread of life
So dearly wroth'd with mine alone,
That Destiny's relentless knife
At once must sever both or none.

There is a form, on which these eyes
Have often gaz'd with fond delight;
By day that form their joy supplies,
And dreams restore it thro' the night.

There is a voice, whose tones inspire
Such thrills of rapture in my breast,
I would not hear a seraph choir,
Unless that voice could join the rest!

There is a face whose blushes tell
Affection's tale upon the cheek;
But pallid at one fond farewell,
Proclaims more love than words can speak.

There is a lip which mine hath prest,
And none had ever prest before;
It vowed to make me sweetly blest,
And mine—mine only prest it more!

There is a bosom—all my own—
Hath pillow'd oft this aching head;
A mouth—which smiles on me alone;
An eye—whose tears with mine are shed.

There are two hearts whose movements thrill
In union so closely sweet,
That pulse to pulse, responsive still,
They both must heave or cease to beat.

There are two souls, whose equal flow
In gentle streams so calmly run,
That when they part—They part! Ah no!
They cannot part—those souls are one.

“Robert Walsh, jun. and Gulian C. Verplank, Esqrs. have engaged themselves, it is said, in connexion with Judge Cooper and other gentlemen, to contribute in future to the ANALYTIC MAGAZINE.”

Our eye was arrested this morning by the above article in the Charleston Patriot, and we felt as though we had been instantive in not having earlier called the attention of our readers to this rare combination of talent in conducting the Analytic Magazine. We have had some thoughts of calling public attention to this subject by a faint outline of the eminent qualifications of those gentlemen for the work they have undertaken, but, oppressed with a sense of our inability to do justice to their various talents and attainments, we declined the task. We then had an idea of impressing the public by recalling to their memories the many and valuable evidences of research, science and skill, which each of those gentlemen have submitted to the American people; but from this we were deterred when we look'd back upon the long list of their publications to which it would be necessary to advert. We now feel that the acquirements and talents of the gentlemen who are named are too well known and are of too impressive a character not to be duly appreciated by an intelligent and patriotic public. This article therefore may be regarded rather as an evidence of our continued good wishes for the prosperity of the Analytic Magazine than as shedding a ray of light upon its many claims to public patronage.

Demographic Press.

CHINESE DOGS.
Dogs are a favorite food in China, and their flesh is common in the shambles. When the butchers are dragging (as is customary) half a dozen to the slaughter-house, they are attacked by all the dogs within the hearing of the cries of their fellows, so that they are obliged to have people to defend them with sticks.

The common people of China will eat any animal, even if they have died of sickness, such as dead horses and dogs that they see floating down the channels. China is certainly the most plentiful, yet from the vast superabundance of the inhabitants, no people suffer such misery as the lowest order; the produce of the earth frequently is insufficient to support such multitudes; this, not want of affection, compels them to expose their infants to death. In China children are esteemed a peculiar blessing. In time of famine, or when the mother falls sick, or their milk fails, they expose them in the streets, or leave them to be murdered by the midwives; such horrid sights are frequent in the streets of Peking and Canton.

In 1712, a dog was shown at Leipzig, which could articulate all the alphabet but w, z, and x.

Fontenelle being asked by a Lord one day at Versailles, “what difference there was between a clock and a woman,” replied, “a clock seems to point out the hours, and a woman to make us forget them.”

ALEXANDRIA: THURSDAY, JULY 2, 1818.

The intelligence from Chili will overspread the whole face of this country with gladness; and swell every heart with gratitude to the Supreme Being for his timely goodness to the children of men: nor will they who upon common principles of well poised patriotism, and self-preservation caution, have disliked running the hazard of a war that would throw us back in the race of national prosperity for many years, by an officious, premature interference in foreign affairs, beyond the demands of right or the limits of reason, feel one atom less satisfaction at this happy event, than they who have brawled so loud and so unscrupulously for a scuffle;—indeed we think they will feel a more unmingled pleasure—satisfaction less alloyed by private counter-motives; since the former are influenced purely by that genuine universal philanthropy which fills the bosoms of disinterested men with anxious wishes for the happiness of their fellow creatures; while the latter are unwarily suspected of having regarded the cause of the South American patriots as a pretext that might easily be made subservient to the petty machinations of foul and pitiful private ambition; and converted into a fire brand to kindle the temper of the misjudging, restless, and turbulent, into a flame against the government, whose patriotism, prudence, and vigour have stayed the plague, which a few discontented men (perhaps only one man, angered that the president's opinion of his merits fell rather short of his own) had endeavored by a side wind, a *tussis pro crepitu*—to introduce into our affairs. As their zeal, therefore, was more mingled with selfish purposes, their joy upon the success of the Chilians will be naturally more sober; and it will be well if that most fortunate accomplishment be not cheapened to their hearts, by the sense that it will diminish the number of their pretexts for censure upon our administration.

STANLEY somewhere says that “if the sacrifice of a character be once resolved upon, it is easy to pick up sticks enough from every hedge to offer it up with.” This is true; but what kind of sacrifices must that be? What impious priests they who offer it, if they approach the temple where truth and virtue alone should find entrance, with faggots of falsehood pilfered from their neighbors' fences?—What a sight to see them swelling out their leathern cheeks in the act of puffing their bundles of dry hemlock and rotten twigs and straws, to blow up a fire which is scarcely a flame when it sinks into smut and ashes! They who would find drag Mr. Monroe to the altar, are still more at a loss than those; and remind us of the children of the indigent in that repertory of impudent lazy beggars, the district of Columbia, with their noses blue with cold, lounging at the door of a carpenter's work-shop for the shavings, by which they lose hours, which if honestly employed might give them food, for the blaze of a minute, which being extinguished leaves them to starve, while they degrade their species by the meanness of their pursuits.

Yet whatever the faults of those may be, it is pretty clear that some of them are, in all probability, thus far disinterested—that they act from pure love of mischief, and are not governed by the orders of the person into whose hands they think they are playing; for that person has sagacity enough rather to decline such pernicious damning aid if they would let him alone. A certain “high-reaching noisy orator of the west,” perfectly agrees with his officious volunteer agent PAUL (of the compass), that Mr. Monroe ought to have appointed him, the said high-reaching orator, secretary of state, and that for not doing so he ought to be ejected out of the presidential chair; but would much rather, no doubt, that Paul had not interfered; because he has thereby only showed his own folly and the weakness of the cause he undertakes—vilifying the National bank, and laying that institution, with all its pretended evils, to the charge of Mr. Monroe; while that gentleman had nothing more to do with it than any other man in the country—and what is more absurd still, Paul does it for the purpose of serving that orator, who was himself one of the most strenuous advocates and earnest eloquent supporters of the institution in its

passage through congress. Such being the case, we have little doubt that the western orator would be very glad if all such friends as Paul would content themselves with only voting for him, whenever it came to the point, if ever it will, which we doubt, and that if Paul must write at all, he would change sides, and write in defence of Mr. Monroe.

Washington, June 30.

A correspondent in Alabama, writing to us on the 4th inst. just after hearing of the late affair at Pensacola, mentions that several Indians were taken in the town, but he had not learnt whether any were found amongst the Spaniards in the fort. It was understood that neither the governor nor any of the Spanish officers were subject to personal restraint, though the soldiers were; and the whole were expected to embark for Havana. General Jackson had left Pensacola, on his return to Tennessee.

Savannah, June 23.

Through the vigilance of the officers of the revenue cutter Dallas, many of the goods that were smuggled from the La Pastora, now in our harbour, have been found and taken possession of. The captain of the Young Spartan, and many of his crew, have also been taken and lodged in goal. They have committed offences which can only be expiated by making their exit from the gallows. [Rep.]

Cotton was selling in Augusta on Friday last, at 25 a 30 cents; Tobacco 85 30 a 87 25.

Extract to the senior Editor of the Republican.

Our army is now in Pensacola. Augustine, and in fact every inch of the Florida will be in our possession in a few weeks. General Jackson's movements would have been quicker had it not been for the defections of the contractors.”

SMUGGLING DETECTED.

On Wednesday last, information reached this place, that a ship and schr. were hovering off the harbor of Port Royal for some days. Suspicion was awakened—capt. Jackson of the revenue cutter Dallas, immediately dispatched two boats, under the command of lieut. Hubbard, with orders to ascertain what vessels they were. They proved to be the patriot privateer Young Spartan, with her prize the Spanish ship La Pastora, from Carroone, bound to Havana. The ship was captured about 18 days since; has in a full cargo of boxes and bale goods. The captain and crew, (with the exception of two boys) of the La Pastora were put into an open boat at sea. Before leaving the ship, the crew were treated by the privateer in a most shameful manner.

Part of the cargo of the prize had been smuggled on shore before lieut. Hubbard boarded her. Receipts for some of the cargo which had been smuggled, were found on board the Young Spartan. Lieut. Hubbard then took possession of the ship and privateer, together with a small sloop called the Fire-Fly, of Beaufort, that had aided in carrying the goods ashore. The privateersmen made no opposition at first, not knowing lieut. H. to be a revenue officer—but were very rude and insulting, and offered threats of violence, after they discovered who he was. The Capt. and crew of the Young Spartan, requested lieut. H. to put them on shore, to which he responded, by giving them the privateer's boat, which they took and departed. Lieut. H. would have detained them, but having only nine men with him, and their number consisting of eighteen, he thought it prudent to let them go. The ship, privateer, and sloop, were brought up to town on Saturday morning last, and will undergo a court of adjudication.

The Young Spartan proves to be the same vessel that captured and brought into this port, a few weeks since, the Danish brig Norberg. Many articles on board the privateer have been recognized, that belonged to the Norberg. [ibid.]

OUR CATACOMB.

The numerous and magnificent catacombs in our country, have been themes of wonder and delight, and are considered as a peculiar feature in the physiology of the western part of this state. Niagara has long been viewed as the greatest natural wonder of the world—and for sublimity and grandeur is doubtless unrivalled.

The falls of the Genesee, the Cohoes, the current on the Black river, have all been noticed by the traveler and journalist. But the falls near this village, which,

passage through congress. Such being the case, we have little doubt that the western orator would be very glad if all such friends as Paul would content themselves with only voting for him, whenever it came to the point, if ever it will, which we doubt, and that if Paul must write at all, he would change sides, and write in defence of Mr. Monroe.

Extract of a letter from Buenos Ayres, dated April 25—communicated for the N. York Daily Advertiser.

“The American frigate left here yesterday with Messrs. Rodney and Graham on board, Mr. Bland having gone to Chili to join the Ontario. The Royalists under Osario, in Chili, have been completely defeated by Martin, on the 3th inst. with the loss of 5000 killed, besides all their artillery and baggage.”

Philadelphia, June 29.

Extract of a letter from Mr. R. Wells, of the schr. Catharine & Jane, Capt. Halsted, of this port, dated St. Jago de Cuba, 4th June, 1818.

“On our passage from St. Thomas, off Cape Maine, we were boarded by a cartagenian, and after being treated in a most barbarous manner, were plundered of about 6000 dollars, the principal part belonging to a French passenger on board. They took from Halsted, (the captain) about 200 dollars; Victor, (one of the seamen) 50 or 60 dollars; and from two of our sailors about 200 dollars each.—Captain Halsted received a sabre wound on his forehead, and one of the sailors received several. The villain is still cruising off the harbor, and I expect we shall see him again. They took off with them our jolly boat, spy glass, a bag, and two cases of wine. The United States ought to have a sloop of war on this station.—All these seas are swarming with these pirates.”

HALIFAX AND ST. JOHN'S.

The following remarks on the policy of making these cities free ports, are copied from the Montreal Herald of the 13th inst. They will amuse if not instruct the American commercial reader:

In our columns we have inserted an article from the Halifax “Free Press,” of the 19th ult. conveying the important intelligence that a bill had passed in the house of commons, on the 8th of April, making those ports free, without any representation of the subject on the part of our two sister colonies. This to be sure is paying no great respect to the legislative authorities of Nova-Scotia and New-Braswick, which certainly ought to have been consulted; however, in Halifax a party seems to be highly gratified who have sent to ministers a petition or some such document, when it can be of no use further than to be smiled at.

Without pretending to greater foresight than our contemporaries, yet we make free to assert that ministers have laid this bill before parliament through an unworthy fear of the American navigation bill, which passed into a law last session, and must have been known in England about the end of March. Some of our readers, in their juvenile years, have no doubt read the romance of “Valentine and Orson,” wherein a projector had a wooden house, which by the agency of a peg, when turned, could carry intelligence to any distance in almost an instant, and return with equal speed, after having spread alarms and beggary.—We know not whether president Monroe has such an agent as Patole's horse, or whether he depends on swift sailing pack-ets; but certain it seems, he has the same sort of peg with which he can turn John Bull's brain at pleasure. We have only seen one section of the bill, and that section, our readers will observe, is in direct violation of the colonial system and navigation act, which has emphatically and truly been denominated our

strongest bulwark of national defence, and the grand engine of annoyance to our enemies.—We should have been glad to have seen the other sections of this bill, because some of them must have been of greater importance than the one before us.

What are we to understand by the term free ports? If exports only of the colonial productions are to be allowed in vessels belonging to nations friendly with Great Britain, then is the denomination of Free Ports incorrect, for unless imports be also implied, they cannot be styled Free Ports. We are, therefore, forcibly led to the conclusion, that imports will be admitted from the United States and other friendly powers, of every article wanted for the West India consumption; for he it remembered, it is altogether a West India experiment to keep the American government, or rather the people in good humor. Now, if this conjecture be well founded, what effect will the Free Port of Halifax, have on the commerce and agriculture of Upper and Lower Canada? Halifax will certainly be glutted with lumber from Penobscot River, and all the bays and creeks of New-England. In five or ten days the market may be glutted with flour, pork, beef and other provisions from N. York, the Delaware, and the Chesapeake Bays. The New England fishermen will carry their fish to Halifax, instead of Boston and other ports, which will enable them to catch more than formerly, as the market is at their elbow, which will be a great injury to the same class of industrious people in the two maritime provinces. But to the Canada the blow will be deadly.—To the West Indies and Newfoundland we could ship nothing with the smallest prospect of advantage: our chance would be little better than if the Americans were to carry their productions to the insular colonies direct, because it is evident those productions would be bought as cheap at Halifax as in the American ports; for when once landed, the owners must soon determine to sell at any price; but the Americans might at the same time be their own shippers, all the odds to them would be the shipping in British vessels instead of their own, which would render Halifax and St. Johns American cities to all intents. We are no strangers to their exemplary industry, and almost unparalleled enterprise, and it would not be hazardous too much to affirm, that in a very few years they would decimate the present inhabitants in wealth, population and influence. This is not a chimerical speculation; and it is not paying the Americans too great a compliment to say, that their admission into a commercial community, is something like receiving the Trojan Horse; the ultimate result would be the same, especially in a distant colony. If there be any exception to this in the British Provinces, it is in Lower Canada.

TOMB OF ROBERT BRUCE.

During the preparations that have been going on in the Pauter church-yard of Dumfermline, towards the building of a new church, a tomb supposed to be that of the celebrated King Robert Bruce, was the other day discovered. There is yet no absolute certainty of the tomb being his, no inscription to that effect having been found, but there is much circumstantial evidence to prove the supposition. The situation corresponding nearly with that of King Robert's sepulchre, pointed out by the two earliest Scotch historians, Barbour and Fordun, while the appearance of the grave indicates it to have been one of a personage of no small distinction. There is a large trog, built of polished stone, about seven feet in length, and eighteen inches in depth; the cover of it when first observed, had in it several iron rings, in a very decayed state; and some of which were even entirely loosened from the stone. In this trog lies a large body, six feet 2 inches in length, cased in lead. The lead is pretty entire except on the breast, where it is much consumed, exhibiting part of the skeleton of the body in a state of considerable preservation. The body itself had been wrapped in a damask cloth, extremely fine, and interwoven with gold, some fragments of which remain. Something like a crown has been observed upon the head, but from the hurried inspection that was made of it, this has not been accurately ascertained. A wooden coffin appears to have surrounded the body, of which some vestiges still exist. The mouldered wood, conceived to be oak, lies strewn on the bottom of the tomb, and one or two nails have been picked up from amongst it. The grave is not closed and secured from any violent depredations by three rows of flag stones, fastened to each other by iron bars, in which state it is to continue till the intention of the Barons of the Exchequer, as to further procedure, are learned. Several fragments of marble, carved and gilt, were dug from the rains in the immediate neighborhood of the tomb, which in all probability are the remains of the monument that had been erected over it.—This tomb, along with the other royal monuments, are all to be within the area of the new church, which will impart to this edifice a consequence and fame of which no similar building in Scotland can boast.

June 4

For Sale.
A VALUABLE FARM, containing between six and seven hundred acres of land, the greater part of which is in timber, and adjoins the land of Charles Thift and Edmund J. Lee, esq. and extends to the road from Leesburg to the mill lately known as Miller's Mill, on Goose Creek, and not more than three quarters of a mile from the turnpike road now making. The northern boundary of this land is not more than three miles from Leesburg, and the nearest which is in timber, not more than one mile and a half. The timbered land will be laid off into 10 or 15 acre lots, reserving a sufficient quantity for the land now cleared and in cultivation. It is unnecessary to say that this land is as well adapted to plow as any in that part of the country; and if not sold at private sale previous to the September Leesburg court, will be then offered at public sale, and the terms made known on the day.
There are fifteen or twenty negroes residing on the farm that may be purchased with it if wanted.

Valuable Land for Sale.

WILL sell the farm on which I reside, known by the name of Indian Town, and containing about one thousand acres. It is situated on Charles County, Md. on Nagom's Creek near its mouth, about seven miles from Fort Tobacco, and forty from Washington City. Few farms combine greater advantages than this, added to a fertility of soil equal to any in the country, it binds on the creek nearly two miles, which affords great facility in getting its productions to market, and precludes the necessity of much fencing; the creek affords in their season, fish and wild fowl in abundance. The soil is peculiarly adapted to the growth of Tobacco, Wheat and Indian Corn, and the planter has been found from experience to act on it admirably. There are now about 100 acres in clover, some of which is well set. The improvements are a new two story dwelling house 16 by 40 feet, kitchen, barn, stables, carriage house, with every other necessary out house, the whole in good repair. There is also a wind-mill in good order, the toll of which affords meal enough for the support of the farm. Also, one other tract containing 115 acres in the forest, about three miles distant, entirely in the woods. There is a well of excellent water in the yard, and several springs on different parts of the farm. The premises may be viewed, and the terms known by application to the subscriber. Should the above farm be sold on the 1st of Sept. next, I will leave it for a term of years.

600 acres of Land for sale.

THIS Tract is situated in Westmoreland county, Virginia, adjacent to Mr. Garnett Hunter's Plantation, and contiguous to the waters of the Potomac. The neighborhood is good—water excellent, and very desirable situations for building. A considerable proportion of the land is well timbered, besides a good deal of cedar, pine and other wood, sufficiently convenient to make it an object for those who may be disposed to send it to market—it is nearly equidistant from Baltimore, Washington and Norfolk. Any one wishing to purchase may apply to

ROGER JONES,

Alexandria.

Also, a very valuable LOT, containing 140 acres, being a part of the late Mr. John Turberville's tract—within 6 miles of Georgetown, 3 from the Little Falls Bridge, and near to the turnpike leading from thence to Wile's, in Fairfax county, Va. A great proportion of this land is exceedingly well timbered, and that part which is not, is so recently cleared as to be in an active state for cultivation, and already in a productive condition. For terms, apply to PHILIP C. JONES, Esq. in Leesburg, Va. or to R. JONES.

March 30

Notice.

THE subscribers who are executors to the last will and testament of col. John Fitzgerald, and wishing to settle, close and adjust, the amount of his arrearages to the government, will dispose of by private contract that well known and valuable 37 acre Lot adjoining the city of Alexandria, (subject to the dower right of the widow) nearly whereon is the celebrated Federal Spring, and a portion of said Lot is on a commanding and beautiful eminence well adapted for a dwelling house. They will also sell the Distillery lot nearly adjoining Mr. Hunter's Ship Yard, with sundry articles thereunto appertaining, as a large Still, Worms, &c. They will also dispose of a half acre lot handsomely situated near the Academy and Mr. Cleop Moore's. Application may be made either jointly or separately to the subscribers, who are empowered by the Comptroller of the Treasury to give any reasonable time for the payment of the purchase money on approved securities.

Charles County Court.

March Term, 1818.

ON application to Charles County court by petition in writing of John Smith, of Charles County, for the benefit of the act of assembly for the relief of sundry insolvent debtors, passed at November session 1805, and the several supplements thereto, on the terms mentioned therein, a schedule of his property and a list of his creditors on oath, so far as he can ascertain them, being annexed to his petition, and the court being satisfied by competent testimony that the said John Smith resided two years immediately preceding the time of his application, in the State of Maryland, and being also satisfied that the said John Smith is in actual confinement for debt, and the said John Smith having entered into bond with sufficient security for his personal appearance in Charles County court, to answer such allegations as his creditors may make against him—it is therefore ordered and adjudged that the said John Smith be discharged from imprisonment; and that by causing a copy of this order to be inserted in some one of the newspapers edited in the District of Columbia, once a week for two months successively before the third Monday of August next, he give notice to his creditors to appear before the said Court, at Charles town, in said county, on the said third Monday of August next, for the purpose of recommending a trustee for their benefit, and to show cause why the said John Smith should not have the benefit of the several insolvent laws as prayed. Given under my hand this 20th day of June 1818.

June 27

Dr. Thomson's System of Chemistry.

IN FOUR VOLUMES OCTAVO.

THE preceding edition of Dr. Thomson's Chemistry, had acquired so much reputation both in England and upon the continent of Europe, that a new edition, comprising the new facts with which the science had been enriched, and the new views of the subject which extended knowledge had suggested as indispensable, was eagerly looked for by the scientific world. A new edition has accordingly appeared, wherein the former edition of five volumes has been condensed into four.

All the new discoveries, and all the new theories of Chemical Phenomena, have been considered and embraced in the present improved edition; so that it is indispensable to the chemical student, as presenting the only condensed view of the changes and alterations in chemical doctrine, which the discoveries of the last ten years have suggested. No apology therefore can be necessary for reprinting such a book in this country; for the press does not furnish a substitute for it. But, there is so much theoretical suggestion—so much abstruse calculation—so much fact of dubious authority—and so much dubious validity—that notes and illustrations are absolutely necessary, not merely to render the book more useful, but more intelligible.

Under these impressions, I thought fit to write notes in illustration (and sometimes in contradiction) of the work itself, rather than to make any abridgement of it. Those who wish to know the modern views of chemical science, must peruse it; and to very many who will be anxious to study it, elucidation will be necessary. I have endeavored to supply these, to the best of my ability; regardless whether my own opinions are in dissonance or coincidence with those of any author; leaving to the reader to decide between us.

The work will be published, with notes and illustrations, in four volumes 8vo. THOMAS COOPER, M. D.

CONDITIONS.

I. The work will be printed on a superfine paper, with a new small pica letter; and will be published early in the ensuing summer.

II. It will be illustrated with a number of cuts, of which several have been necessarily added to the London edition.

III. It will be delivered to subscribers at \$12—to non-subscribers at \$14, in boards. The London edition sells for \$18.

Subscriptions will be received by

June 20

James Kennedy & Son,

RESPECTFULLY inform the public that they have just received from LEE'S MEDICINE STORE, No. 45, Maiden lane, New-York a fresh supply of the following valuable MEDICINES:

Hamilton's Worm destroying Lozenges.

Which have within sixteen years past cured an immense number of persons of both sexes of every age and in every situation, of various dangerous complaints arising from WORMS, and from obstructions or foulness in the stomach and bowels.

This medicine bears no analogy whatever to others of similar titles so commonly complained of as operating with violence; on the contrary a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent & is so mild in its operation that it cannot injure the most delicate pregnant lady or the tenderest infant of a week old should no worms exist in the body; but will without pain or griping cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the production of worms and many fatal disorders. The lozenges are particularly efficacious in carrying off all gross humours and eruptions, feverish and bilious complaints, and are the safest and mildest purgative that can be used on any occasion.

Description of Worms, and the symptoms by which they are known.

Worms which infest the human body are chiefly of four kinds viz.—The Terebra or large round worm; the Ascarides or small maw-worm; the Cucurbitaria or short flat white worm; and lastly, the Tania or tape-worm, so called from its resemblance to tape. This is often many yards long and is full of joints. It is most hurtful and most difficult to remove.

Among the symptoms attending worms are—disagreeable breath, especially in the morning; bad and corrupted gums; itching in the nose, and about the seat; convulsions, epileptic fits, and sometimes privation of speech; starting and grinding of the teeth in sleep; irregular appetite, sometimes loathing food and sometimes voracious; purging with slimy and fetid stools; vomiting; large and hard belly; pains and sickness at the stomach; pains in the head and thighs and lowness of spirits; slow fever with small and irregular pulse; a dry cough; excessive thirst; sometimes pale and unhealthy countenance, and sometimes the face bloated and flushed.

Persons afflicted with any of the above symptoms should have immediate recourse to Hamilton's Worm Destroying Lozenges, which have been constantly attended with success in all complaints similar to those above described.

A dose of this medicine given occasionally during the warm season, will effectually prevent "the vomiting and purging of children"—a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number when in an advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

The Restorative Powder for the Teeth and Gums.

A sovereign remedy for all diseases of the eyes, whether the effect of natural weakness, or of accident.

Tooth Ache Drops.

The only remedy yet discovered which gives immediate and lasting relief in the most severe instances.

Lee's Infallible Ague and Fever Drops

For the cure of agues, remittent and intermittent fevers.

At the place of sale pamphlets may be had gratis, describing cures performed by the above medicines; the number, importance and respectability of which, fully justify every article of this advertisement.

Sold only wholesale and retail, by

JAMES KENNEDY & SON,

September 26 King-st. Alexandria.

For the prevention and cure of BILIOUS and MALIGNANT FEVERS

HAHN'S ANTI-BILIOUS PILLS

THIS Medicine has been attended with a degree of success highly grateful to the inventor's feelings in several parts of the West Indies and in the Southern and Middle States, &c.

The testimony of a number of persons can be adduced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances.

Facts of this conclusive nature speak more in favour of a medicine than calumnies of pompous eulogy founded on mere assertion.

It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience for believing that a dose of these Pills taken once in every two weeks during the prevalence of our bilious fevers, will prove an infallible preventive; and further, that in the earlier stages of those diseases their use will very generally succeed in restoring health, and frequently in cases esteemed desperate and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation and of every age.

They are excellently adapted to carry off superfluous bile and prevent its morbid secretions—to restore and amend the appetite—to produce a free perspiration and thereby prevent colds which are often of fatal consequences. A dose never fails to remove a cold if taken on its first appearance; they are celebrated for removing habitual costiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficacious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.
